

## English Reading

### Intent

Our English curriculum is based around the National Curriculum. We believe that a quality English curriculum should develop children's love of reading, writing and discussion. We aim to instil in the children the importance of reading and inspire a habit and passion for reading widely and often. We recognise the importance of nurturing a culture where children take pride in their writing, can write clearly and accurately and adapt their language and style for a range of contexts. We want children to have an understanding that writing has a real purpose and that word choice and style can bring about change. We want to inspire all children to be confident in the art of speaking and listening. We believe that children need to develop a secure knowledge-base in English, which follows a clear pathway of progression as they advance from nursery to year 6. We believe that a secure basis in English skills is crucial to a high-quality education and will give our children the tools they need to thrive in Key Stage 3 and beyond.

### Rationale

We believe that teaching the children to read proficiently, fluently, exercise choice and to have a positive attitude to reading and have a love of reading is one of our most important duties as a school. We aim to grow a love of reading for pleasure in our children (both in and out of school) as we recognise the importance of reading to their independent learning, further success and well-being. Our reading curriculum will be accessible for all regardless of gender, race or religion; accessible for all learners including children with additional needs. There will be a range of tools and techniques used to support and enhance the teaching of reading, including the use of IT, drama and debate. From year 2 upwards, whilst our approach is around using one core whole class text, some pupils may not be able to access this and will require differentiated texts to ensure full engagement. Our consistent whole school approach to the teaching of reading will ensure that we close any gaps and enable the highest possible number of children to attain well.

### Criteria for resources

The texts we choose are selected to ensure that we have coverage across a full range of genres and themes within fiction, non-fiction and poetry. Texts fully represent the world we live in and the community we serve. We ensure there is diversity across the text range, which includes author, characters, setting and context. Where possible, we choose whole books and sometimes text extracts from high calibre authors, preferably with other texts that the children can then connect with.

### Teaching of Reading (Y2-Y6)

Reading is fun. Reading lessons will be accurately pitched and highly engaging. Through outstanding text choice and a strong range of response activities, children will immerse into the text and understand both style and content. Across the course of each unit a variety of different immersion activities will allow children to fully engage with the text. Teachers will ensure that the reading of the text is both a learning and teaching opportunity and will make discerning choices as to how the text is read in each lesson: teacher modelling, individual carousel of readers, paired or small group, whole class etc Teachers will have a really clear understanding when planning what high quality outcomes look like for each ability level. Teacher enthusiasm and purposeful use of the classroom environment will enhance the unit outcomes.
