

CHINA

by Rehman Khan

Where is China?

China is located in the continent of Asia and it is the most densely populated country in the world. More than 1 billion people live there. It is the third biggest country in the world.

Winter in China

Winter in China is very cold but fun because there is lots of snow and ice and once a year, people come from all over the world to make and to see ice and snow sculptures. Some of them even light up at night!

Summer in China

Summer in China is very hot and lots of people go to the beach. It gets so busy that there isn't much room!

Great Wall of China

The Great Wall of China is the largest manmade structure in the world and it is over 13 thousand miles long. Just like a huge dragon, it winds through deserts, mountains and grasslands.
